California Fire Safe Council Announces Support to Help Communities Prevent Wildfire

2014 GRANT AWARDS ANNOUNCEMENT

California Fire Safe Council (CFSC) is pleased to report on its 2014 Clearinghouse Awards. Executive Director Margaret Grayson announced grants for 38 projects spanning 30 counties in California that support CFSC's efforts to support fire risk reduction activities by landowners and residents in at-risk communities in California and Nevada.

California Fire Safe Council would like to acknowledge the Cooperative Fire Program of the U.S. Forest Service, Department of Agriculture, Pacific Southwest Region for their continued support of this grant program.

The 38 projects help California and Nevada communities respond to the growing concern over catastrophic wildfire and exemplify efforts to become more fire-safe and resistant to wildfire threats. These projects utilize current educational tools to spread the fire-safe message, engage community members and provide support to implement fuel reduction projects such as chipper programs and roadside and defensible space clearance.
